

Priyanshu Prajapati

Bhilwara (Raj) 311001 | prajapatipriyasnhu123p2@gmail.com | 8005986138 | [LinkedIn](#) | [GitHub](#)

SKILLS

- **Programming Skills:**

HTML, CSS, Java Script, C, C++, Python, Django.

- **Microsoft Office:**

MS Word, MS PowerPoint, MS Excel (basic).

- **Editing:**

Davinci Resolve

EDUCATION

- Diploma in Computer Science & Engineering 3rd Year (Sem 5) | 2024
Sangam University, Bhilwara (Raj.)
- X (CBSE) | Central Academy Senior Secondary School, Bhilwara 68.4% | 2022

EXPERIENCE

- **Intern | Hash Trust Technologies** june'1 - Aug'31 | 2024
Learn about Python and Django. Wrote frontend & backend APIs for an E-commerce website – Python, Django.

ACADEMIC PROJECTS

- **PDF Merger ([Code](#))**
Developed a Python-based utility to merge multiple PDF files into a single document. The project involved using the PyPDF2 library to manipulate PDFs, providing an easy-to-use interface to select files and generate a merged output -Python.
- **Image Resizer ([Code](#))**
It's an image resizing tool using Python and OpenCV, allowing users to efficiently resize images while maintaining aspect ratios -Python.
- **Weather App ([Code](#))**
The app provides current temperature, humidity, and weather conditions for any specified location. It fetches real-time weather data from an API - Python.
- **Facial Recognition Attendance System ([Code](#))**
The system detects and recognizes faces in real-time, matching them against a known database. Utilized the face-recognition library for encoding and comparing facial features with high accuracy using Python and OpenCV - Python.
- **Gesture Detection System ([Code](#))**
Created a real-time Gesture Detection System using Python and OpenCV to recognize hand gestures for touchless interaction. It detects gesture and do real-time video processing -Python.
- **Robo Speaker ([Code](#))**
Created a Robo Speaker using Python that converts text into speech using python library (gtts – google text to speech), allowing users to enter text and hear it spoken aloud -Python.

ACHIEVEMENTS

- **Winner of Video competition (video Editing Compaction).** -Tech Kriti at Sangam University.
- **Runner Up of Hackathon among 10 teams.** -Heald at Sangam University on Engineer's Day.
